

INTELLIGENT LOCKERS FOR HANDHELD SCANNERS

Mr. **iLockerz**

INTELLIGENT LOCKER SYSTEMS

iLockerz provides an intelligent solution for organisations seeking greater control over its shared use devices and essential work equipment.

By implementing iLockerz, items become more accessible to authorised staff, with digital devices being fully charged and securely stored between uses.

Cutting-edge software and RFID technology also provides real-time data on all activity, making it easier to track all items and generate audit reports.
