iLockerz

SMART LOCKERS:
SELF-SERVICE ACCESS TO LAPTOPS

iLockerz intelligent electronic locker systems offer educational institutions an automated collection and return facility for laptops and tablets, ensuring digital devices are consistently available for immediate use.

iLockerz offers an intuitive solution for automating access to digital devices, guaranteeing that laptops are consistently available for immediate use. Equipped with a cutting-edge 'charge authentication' feature, *iLockerz* provides a reliable verification process, ensuring devices are always returned.

Educational institutions can establish a self-service collection and return facility that is not only cost-effective but also equipped with advanced device tracking and reporting functionalities.

By implementing *iLockerz*, device management processes are optimised by enabling students and staff to effortlessly collect and return devices, reducing administrative burdens and promoting a more efficient workflow for IT and technical teams.

Secure automated lockers for storing and charging:

- Laptops
- iPads
- Electronic tablets
- Educational devices   ...and more

iLockerz seamlessly integrates with Learning Management Systems and supports Active Directory user imports in addition to OpenAI, facilitating a streamlined user experience while simplifying user management tasks.
