SMART LOCKERS:
DROP-OFF & COLLECTION

iLockerz intelligent electronic locker systems offer organisations an automated 24/7 deposit and retrieval facility, connecting customers with purchased goods and employees with work equipment.

iLockerz can be implemented indoors or outdoors in Drop-off & Collection mode to accommodate the smart delivery and collection of packages, parcels, keys, laundry and other essential items.

As well as being convenient, *iL*ockerz drop-off and collection lockers provide a contactless, safe experience for users, delivering a safe solution that meets the demands of modern living.

Each locker is programmed to deliver a fully automated and trackable process in real-time, achieving a seamless service whilst creating many other opportunities for organisational growth and improvement.

Hassle-free solutions for the drop-off and collection of:

- Online Orders / Parcels
- Laundry
- Auto/Residential/Commercial Keys
- IT Equipment (for ITSM)   ...and more

iLockerz reduces waiting and customer dwell times, minimising service department overheads, effectively increasing profitability.

Multiple configurations, one solution

Designed to withstand high-volume use, *iL*ockerz are manufactured using 2mm thick steel security housing and can be customised to suit individual requirements, offering:

- A combination of locker door and drawer sizes
- A range of in-compartment power and charging options
- Emergency manual key override
- Fast Drop-Off for couriers, with customer email address selection from a pre-set list or manual input
- Fast collection for users via PIN, QR code, access card/fob or fingerprint access
- Automated email alerts to users when an item is ready
- HD colour photo record of each transaction
- Emergency battery back-up

Powerful web software, enhanced user experience

*iL*ockerz solutions are configured with intuitive web and touch screen software, providing:

- A clean, fast and easy to use customer journey with visual and audible cues included
- Automated customer confirmation emails with collection PIN/QR codes and user instructions
- Comprehensive audit trails showing all locker compartment, system and software usage
- In-built iLockerz application offering fully stand-alone (local) or online setup options
- Web-based locker management software providing all management information and transactions
- Third party integration available
