iLockerz

SMART LOCKERS:
PERSONAL ITEM STORAGE

iLockerz intelligent electronic locker systems offer a centralised storage solution for students and staff wanting to securely stow away belongings that require temporary safekeeping.

iLockerz intelligent lockers can be used for storing personal items, allowing students to borrow a locker compartment and conveniently retrieve their belongings to suit their learning timetable.

Each *iLockerz* system can include in-compartment power facilities, enabling users to re-charge electronic devices such as smartphones, laptops or tablets whilst they are securely stored. A powerful web-based back-end portal is also available for complete management control.

Advanced software built into *iLockerz* provides a fully automated service, with locker pre-booking and availability shown via the web, app or through a third party integration.

Secure smart lockers for short-term storage of:

- Mobile phones
- iPads, tablets and laptops
- Backpacks, briefcases and bags
- Files, folders and books   ...and more

iLockerz can be equipped with in-compartment charging solutions, including 3-pin plugs, USB 3.0 ports or hardwired cables as required.
